Portable Compressors

Mobilair™ M70**Versatile**

The Mobilair™ M70 is a versatile portable rotary screw compressor suitable for all outdoor applications including sand blasting, pavement breaking and general air tool use, as well as portable backup for stationary compressors. It produces 250 cfm at 100 psig and other pressures are available.

The M70 offers a wide array of features that make it very user-friendly. Units come standard with an easy-to-read control panel including a push-to-load switch. The large fuel tank provides

extended operation and has a large filler neck with overflow protection for safe, easy filling. A torsion bar suspension system and oversized tires provide superior road handling. The canopy is also super-soundproofed and provides extremely low decibel levels—just 70 db(A) at 23 feet.

Efficient and Reliable

A heavy-duty 4-cylinder engine combined with our energy saving Sigma Profile airend produces more air with less horsepower. To eliminate tool freeze-up, another standard feature is our

Standard Features:

- Sigma Profile rotary screw airend with direct drive produces more air with less horsepower
- Heavy-duty 4-cylinder diesel engine complies with current Tier 3 EPA emissions standards
- Large fuel tank for extended operation
- High capacity cold start battery ensures reliable operation even under extreme working conditions
- Proprietary anti-frost thermostatic valve avoids tool freeze-ups
- Weatherproof toolbox

Optional Features:

- Pressures to 150 psig
- Five year airend warranty
- Aftercooler and filtration packages
- 8 kVA generator
- Complete line of air tools

proprietary anti-frost thermostatic valve. The M70's heavy-duty steel chassis and powder-coated canopy ensure smooth operation even when subjected to the harshest conditions. Both the canopy and solid steel flooring protect the motor, airend, and critical components from dirt, water, and other contaminants. The engine and compressor inlets are filtered with maintenance indicators. This protection, combined with a high efficiency cooling system allows the M70 to operate in ambient temperatures up to 120°F.

10 Outstanding Advantages

8 kVA Generator option

- 1** Easy access with gull-wing doors
- 2** Easy to read instrument panel with load switch
- 3** 4 micron compressor air inlet filter with maintenance indicator protects the equipment
- 4** Direct drive Sigma Profile airend produces more air with less fuel consumption
- 5** Heavy-duty diesel engine complies with Tier 2 emissions standards
- 6** 10 micron spin-on oil filter with integral anti-frost thermostatic valve
- 7** Heavy-duty bumpers and lighting kit are standard
- 8** Extra-large capacity fuel tank provides 10 hours of operation
- 9** Thick sound proofing for super low noise level
- 10** Convenient weatherproof tool box (not shown)

Specifications

Compressor		Diesel Engine		Package		Dimensions		
Free air delivery	250 cfm	Make	Kubota V2003T	Fuel tank capacity	28 gal.	Length*	149"	
Working pressure	100 psig	Power at full load	56 hp	Weight, dry	2263 lbs.	Width	66"	
Air outlets	2 x 3/4" + 1 x 1"	Full load speed	2950 rpm	Weight, wet	2513 lbs.	Height	56"	
Max. ambient temp.	120°F	Off load running	2000 rpm	Sound level max	70 db(A)			
							*Includes tow bar

Certified Management Systems

The Air Systems Specialist

With over 85 years of experience, Kaeser is the air systems specialist. Our extensive 100,000 square foot facility allows us to provide unequalled product availability. With service centers nationwide and our 24-hour emergency parts guarantee, Kaeser customers can rely on the best after-sales support in the industry. Kaeser stands committed on providing the highest quality air system for your specific compressed air needs.
